Tami,

We are trying to get our agenda finalized. Did you get a confirmation? Lisa

Hi Lisa,

Thank you for the clarification, I wasn't sure if you wanted the Mining Information session to be presented at this conference. We had to reschedule that until the Spring, which is the plan at this moment, it is a day long session that is done in joint with the Alaska Department of Natural Resources, US Army Corps of Engineers and EPA. The folks who would be best prepared to talk about the 404(c) request that was received are out of the office until next week. So, as soon as I hear back from them I will get in touch with you.

Thanks! Tami

Hi Tami,
The conference is to get information out to the communities closest to the proposed Pebble Mine. We are interested in hearing about the 404 clean water act that a group is pushing for EPA to implement. We are communities that will be truly impacted by this proposed project and yet EPA had a meeting 200 miles away from us with Lisa Jackson with no consideration to us this summer (Dillingham, Alaska) we think a meeting is necessary to hear what is being proposed to EPA. It only seems fair to us.
Lisa

Dear Lisa,
Thank you for the invitation for EPA to attend the November Iliamna/Newhalen conference. I would like to request additional information about the attached invite to EPA. Do you have information on the conference that you could send to me, also is there a presentation that you would like EPA to make? The additional information will help me to determine who from EPA Region 10 the invitation should go to.

Thank you,
Tami
